

Lockout/Tagout – All Purpose Cable Lockout

Brady is the global leader in Lockout/Tagout solutions and offers a complete solution for Lockout/Tagout. Lockout/Tagout prevents workplace accidents by completely and temporarily isolating machinery from its energy sources. When implemented well, it stops machine movement and machine energisation while interventions are ongoing.

Lockout / Tagout – All Purpose Cable Lockout (APCLO) – Refresh

- Lock out a wide variety of energy isolation points - including those that are difficult to secure - with one, multi-purpose and versatile device
- Easy to use ergonomic handle system
- Easy to tighten the cable in the closed & locked position of the device
- Made out of ABS and glass-filled nylon materials for reliability and endurance in harsh environments

Specification:

Material device:	ABS (housing), glass-filled nylon (handle)
Dimensions (HxWxD):	182 mm x 68 mm x 36 mm
Cable option:	Nylon (red); Steel coated with clear PVC
Colour option (housing)	Red, Green

The new solution from Brady will fully replace the existing APCLO offer. We will discontinue the parts of the old solution with the launch of the new parts. The new cables only work with the new devices and are not compatible with the existing offer.

OLD - All Purpose Cable Lockout

Features:

- Lock out a wide variety of energy isolation points - including those that are difficult to secure - with one, multi-purpose and versatile device.
- Easy to use handle system
